All Krieger products are proudly designed and manufactured in the United States.

Color Variation Notes

- These color ranges are the result of applying the same color stain to face veneer, which naturally varies in color and grain.
- Just as there is a natural range of color in face veneers, there will be a range of finish door colors.
- The doors for the job represented by this sample were specified and quoted based on the industry standards for color range.
- Species that permit sapwood will have a wider range of color between sapwoods and heartwoods in a particular species.
