

KriegerBullet Level 10 Hollow Metal Door

Model: BR-HM-LVL10

ADA
COMPLIANT

2¼" THICK
DOOR PANEL

The industry-leading KriegerBullet door assembly is engineered to protect personnel and property from bullets and ricochet. This door comes with a UL 752 Level 10 bullet rating, which means it can stop a single shot from a high-powered .50 caliber rifle.

Configurations

Available in single, uneven paired, and double door assemblies; two-panel assemblies come with an astragal or removeable mullion.

Frame

Three-sided frame features innovative slip-in with trim design, Z anchor, nailing straps, T anchor, or punch & dimple frame types.

Door Panel

Door panel is 2¼" thick with seamless edge on top and sides, and adjustable door bottom. ADA-compliant for push/pull maximum force.

Continuous Hinge

Comes with a heavy-duty continuous hinge for even weight distribution, maximum support, and security.

Vision Lights

Available with fully customizable vision lights, side lights, and transoms. Bullet-resistant glass UL 752 rating must match the rating for the door assembly.

Custom Finishes

Prime Painted **Stainless Steel** **Historic Designs** **Moldings & More**

Wood Veneer Available
See separate cut sheet for details.

HM-00013 May 2026

Tests and Certifications

- UL 752 11th Edition Level 10 bullet rating means it can withstand a single impact from a .50 caliber rifle loading full metal jacket ammunition shot at 3091 FPS.
- UL 752 is the most widely used and accepted rating system for ballistic-grade materials.
- Meets National Institute of Justice (NIJ) Standard 0108.01 Type IV, which can stop 1 shot from a .30 caliber rifle.

Door and Frame Construction

- Choice of frame design includes: slip-in with trim, Z anchor, nailing straps, T anchor, and punch & dimple.
- Constructed with formed, heavy-gauge steel face sheets around a custom engineered steel rib core with interior armor plate.
- Features 2¼" thick door panel and can meet all specifications for size, finish, and performance; contact us to customize your assembly.
- Three-sided frame design does not require a threshold. Aluminum threshold is available upon request.
- Door panel meets ADA requirements for push/pull maximum force.

Door Sizes

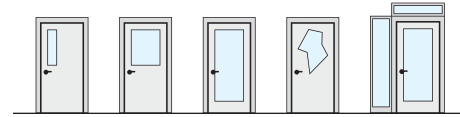

- All KriegerBullet doors are available in standard and custom sizes, including oversized doors.

Hardware

- This UL 752 11th Edition Level 10-rated bullet door comes with a heavy-duty continuous hinge for even weight distribution, maximum support, and security.
- Designed to interface with recommended builder's hardware, including latches and locksets, panic devices, security hardware, access controls, and other options.

Finishes

- Krieger's custom finish options include prime painted, stainless steel, specialty finishes, and more—all perfectly matched to complement your project.
- Wood veneer is available. See separate cut sheet for details.

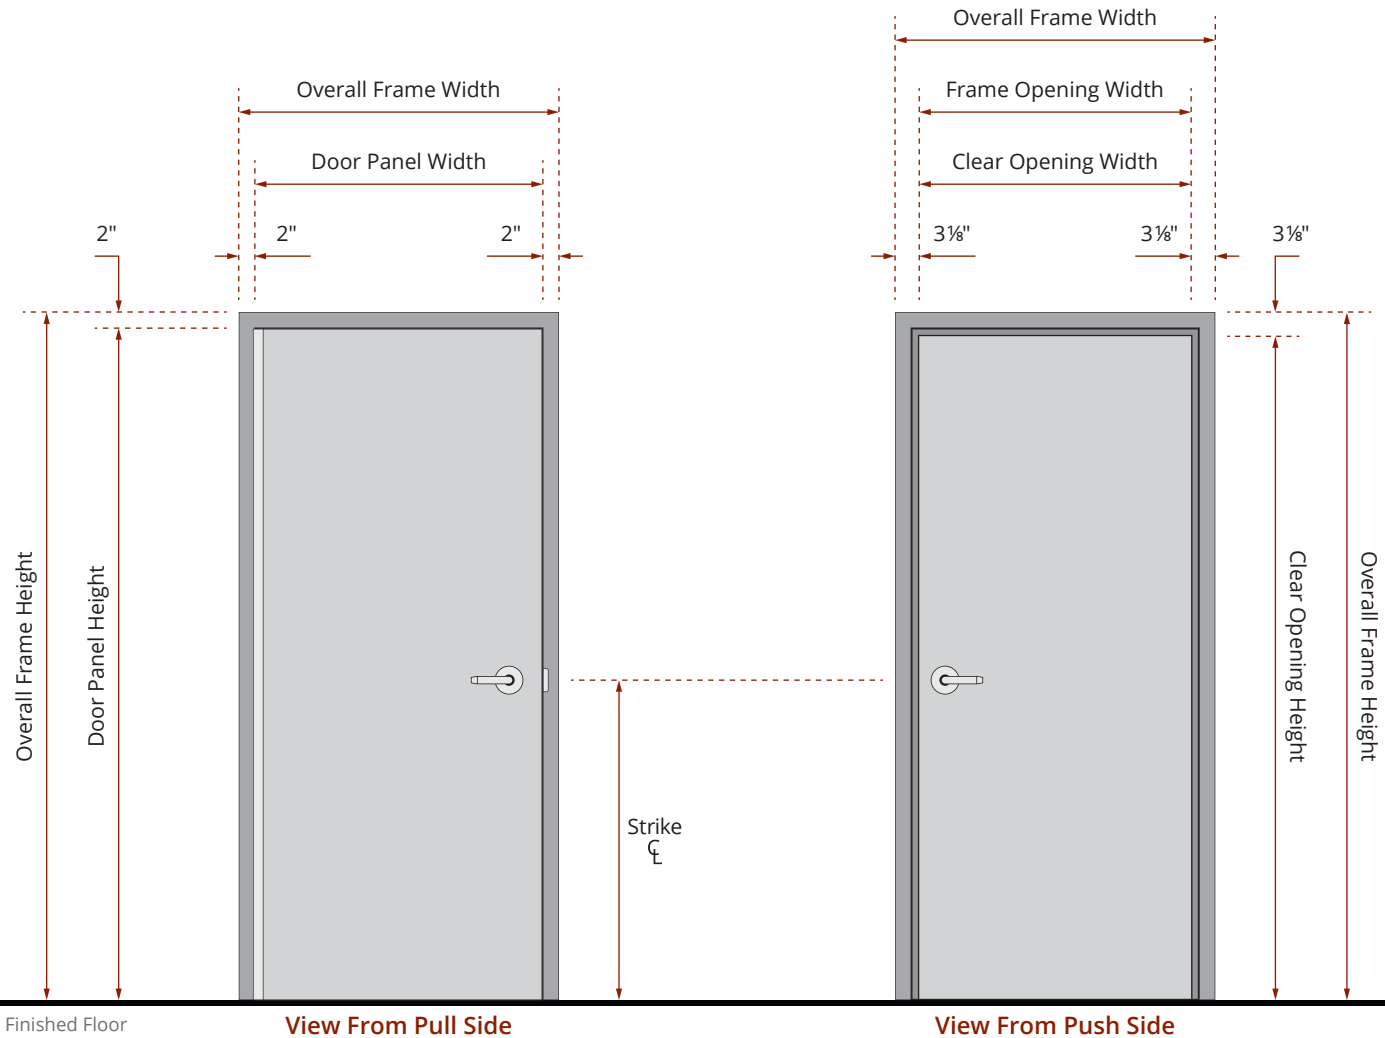

Vision Lights • Side Lights • Transoms

- Fully customizable vision lights, side lights, and transoms are available.
- Krieger offers tested and certified glass or glass/polycarbonate glazing materials for bullet door assemblies with vision lights, side lights, and/or transoms.
- Bullet glass UL 752 11th Edition rating must match the rating for the door assembly.
- All glass is shipped along with the door assembly to be installed at the job site by your glazer.
- Option to add adjustable blinds in between the panes of glass to control the amount of light and provide added privacy and security.
